

BPW Kraatz Oy, aftermarket (Trailcon) and Lumikko Technologies Oy enter into a cooperation agreement

Dear customer,

Lumikko Technologies Oy has been placed in liquidation proceedings in October 2024, as a result of which operational operations will end on April 30, 2025. The aim is to secure the functionality of customers' temperature control units, spare parts and maintenance services also in the future.

BPW Kraatz Oy, aftermarket (Trailcon) and Lumikko Technologies Oy have signed a cooperation agreement on the sale and distribution of spare parts, maintenance support and warranty equipment. In addition, existing maintenance agreements will be negotiated with customers in the near future.

Cooperation with contract service points will continue normally and spare parts can be ordered through Trailcon no later than week 16. Spare part transfers to Trailcon have begun, as a result of which there may be temporary disruptions to the delivery times of spare parts. However, the aim is to stabilize spare part deliveries during April 2025, when the spare part transfers are complete.

Lumikko's component suppliers continue their well-established cooperation with Trailcon. Component suppliers will be contacted on behalf of the new partner in the coming weeks.

More information from Trailcon stores!
